Honourable Minister Isifu Seidu
Minister of State, Climate Change and Sustainability

01

Introduction

About the Program

The Association of African Sustainability Practitioners (AASP) is a non-governmental, non-profit organisation founded by Think Energy (TEnE), Africa's pioneering online green platform exclusively focused on ESG and sustainability. AASP aims to support knowledge-based green transition across Africa, with a focus on renewable energy, sustainable development, and environmental stewardship.

In partnership with Jomo Institute of Sustainability, AASP has introduced certified sustainability courses, designed to equip professionals and leaders with the knowledge, skills, and expertise needed to drive Africa's transition to a more sustainable future. These courses cover key sectors such as renewable energy, construction, banking, transport, agriculture, and academia, ensuring a comprehensive approach to sustainability.

By combining industry expertise with academic rigor, AASP and Jomo Institute of Sustainability are poised to make a significant impact in shaping Africa's sustainability landscape. This collaboration supports the development of a new generation of sustainability practitioners and thought leaders, equipped to address the complex challenges facing Africa and contribute to a more sustainable future.

Through its work, AASP and Think Energy (TEnE) are contributing to

accelerated Nations Sustainable Development Goals (SDG), including:

SDG 4: Quality Education (through certified sustainability courses)

SDG 7: Affordable and Clean Energy (through promoting renewable energy and sustainable energy practices)

SDG 13: Climate Action (through supporting climate change mitigation and adaptation strategies)

SDG 14: Life Below Water (through promoting sustainable practices that protect marine ecosystems)

By working together, AASP, Think Energy (TEnE), and Jomo Institute of Sustainability are driving positive change and promoting sustainable development across Africa.

02

Africa Executives

Kwadwo Kwakye Gyau

*Head, Risk & Sustainability Management /
Ghana Infrastructure Investment Fund (GIIF)*

Kwadwo Gyau Kwakye is a seasoned finance and sustainability professional with over 30 years of experience in infrastructure investment, risk management, and sustainable finance. As Head of Risk and Sustainability Management at the Ghana Infrastructure Investment Fund (GIIF), he mobilises capital, drives access to green finance, and develops climate-friendly infrastructure projects aligned with Ghana's low-carbon, equitable & Chartered Environmental and Climate Change Strategy (2021-2030). He continues to play a pivotal role in advancing Ghana's transition to sustainable, climate-resilient growth.

Kwaku Wiade

*Director of the Engineering Services Dept. of
Vodafone Germany*

Kwaku Wiade brings nearly 30 years of experience in Ghana's energy sector, with expertise in renewable energy, energy planning, and climate resilience. Earlier in his career at the National Institute of Technology and Environment (NITE), he advanced Ghana's development initiatives (2007) and pursued engaged collaborations on various markets, where he was in charge of leading Japan's Private University and while in Civil Engineering, he combined strong academic grounding with practical leadership in sustainable energy solutions.

Mohammed Naziru

*Energy and Infrastructure Advisor /
Ambassador of the Republic of Ghana to China*

Mohammed Naziru is an experienced professional in diplomacy, international relations, and business development, with a strong track record of fostering international cooperation. He served over seven years as Energy and Infrastructure Advisor to the Embassy of the Republic of Ghana in China, supporting high-level government and industry engagements. Previously an African Representative for Infrastructure Consulting LLP (AIC), he coordinated across 16 African countries to promote energy and mining investment opportunities. He has also represented at international conferences in the US, China, and Korea, building global partnerships.

Ruth Abanga

*Corporate Social Responsibility/
Sustainability Officer | Africa*

Mrs. Ruth Abanga is a seasoned expert in sustainability, corporate communications, and stakeholder engagement with a strong record of advancing environmental governance and CSR in Ghana. In 2015, she leads high-impact sustainability and branding initiatives while promoting science education. She is also an Honorary Member of the Association of African Sustainability Practitioners and founding President of the Association of Professional Development Communicators. She is a multi-award-winning entrepreneur and mentor who actively empowers young professionals and women in sustainable business and leadership.

Mercedes Maud Naa Dei Ashie

Head Internal Audit (2017)

Mercedes Maud Naa Dei Ashie is a chartered accountant with over 10 years of experience in internal audit, controls, compliance, and corporate governance across various industries. She began her career at NTA, later advancing to a senior role at PwC Ghana, where she specialised in internal audit, governance, and risk management. She has also delivered public training on audit tools and business practices, while contributing to business development initiatives. Mercedes holds a BSc in Commerce (Finance) and an MSc in Hospitality and Tourism from the University of Ghana.

Samuel Acquah

Manager of Strategy, Risk and Compliance | GbidaCo

Samuel is a finance professional with nearly 20 years of experience in risk management, budgeting, strategy and financial planning. He is a chartered Global Management accountant (CGMA) and currently serves as Manager for Strategy, Risk, and Compliance at GbidaCo, where he leads corporate risk management and strategy development. Samuel holds degrees in Economics and Mathematics (University of Cape Coast) and Public Administration (Ghana), as well as a certificate in Corporate Finance and Strategy (GRI). He is passionate about advancing financial sustainability and strong business strategies across Africa.

Rev. Stephen Adjell

*Director of Contracts Management,
Opus Foundation*

Rev. Stephen Adjell is dual qualified in Construction Law and Project Management with over 25 years of executive-level experience across the construction, engineering, energy, and governmental industries. He holds an MSc in Construction Law, an MBA in Project Management, and a Certificate in Executive Strategy from the University of Oxford alongside prestigious professional credentials including RICS, FICM, MRICS (Part), and CMIL. Stephen has significantly contributed to the advancement of education and international degree education in the UK, Africa, and the Middle East, and serves as a Subject Matter Expert for the Project Management Institute (PMI). He is currently Director of Contracts Management at Opus Foundation, where he champions green and sustainable solutions in project delivery.

Mr. Francis Ayisi

*Head of ESG and Sustainability/
Standard Bank Ghana*

Francis Ayisi is a seasoned banking professional with expertise in marketing, project management, and business strategy. He holds an MBA from Cardiff University – School of Management (UK), a BA in Geography and Economic Development from the University of Ghana, and professional qualifications as an Associate Member of the Chartered Institute of Marketing and a Chartered Project Manager (PMO) Level 3. With a strong background in marketing, communication, project leadership, and financial services, Francis continues to contribute to Ghana's banking and business development landscape.

Afua A. Baiden

*Senior Environmental & Social Risk
Coordinator / GIZ*

Affua Afua Baiden (PhD, MSc) is a Chartered Quantity Surveyor and sustainability professional with over 20 years of experience across research, education, construction, and banking. For the past 10 years, she has worked in the banking sector with a focus on sustainable finance and risk management. In 2010, she joined the University of Johannesburg Business School (South Africa), and holds a Master of Philosophy in Development Finance with research in sustainable banking. She currently serves as Senior Environmental & Social Risk Coordinator at the Ghana Infrastructure Investment Fund (GIIF) where she advances green and inclusive finance for sustainable growth.

Cedric Dossou

*Technical Director to the Minister of State, Ghana/
Climate Change and Sustainability*

Cedric Dossou is climate change advocate and youth leader with over 8 years of experience at the intersection of climate policy, community development, and sustainability. He currently serves as Technical Director to the Minister of State in Charge of Climate Change and Sustainability and is the founder of Frontline for Climate Action, an organization advocating moral action on the climate crisis. Cedric has held leadership roles including Global Climate Change Ambassador for the United Youth, Director of Administration and Finance at the African Youth Commission, and Board Member of the Ghana Youth Federation. He holds an MSc in Development Finance (University of Ghana) and a BSc in Marketing (Ghana), and continues to champion youth empowerment and climate advocacy work at home and abroad.

Patrons

03

Prof. Ameyi Acalapowi

Samuel Adigun

deputy vice-chancellor, Lagos Technical University (LTU)

Prof. Ameyi Acalapowi is a distinguished professor of Electrical and Energy Systems Engineering and the acting vice-chancellor of Lagos Technical University (LTU). He also serves as President of the 100+ National Committee of Ghana and holds senior memberships with IEEE and the Institution of Engineers (IEng) and Technologists (Ghana). With a PhD in Energy Systems Engineering (IEng) (University of Lagos), Prof. Acalapowi has authored over 100 publications and supervised numerous MSc and PhD theses. Over 1000+ he has spearheaded skills transformation, expanding postgraduate programs, running major grants, and leading efforts to recognition by Tertiary Higher Education (THES) as Ghana's top technical university and Africa's Sub-Saharan Africa.

Dr. Ben Asante

Samuel A. Okudzeto

Executive Vice President | Ghana National Gas Company

Dr. Ben Asante is a Chemical & Petroleum Engineer with over 35 years of experience in the global oil and gas industry. He has worked with leading companies in Canada, the USA, and Ghana, including Suncor Energy/Imperial Oil Energy Services, Jacobs Engineering, Uthmaniyah, and Ghana National Gas Company (ONGC). Ghana has most recently named as CEO Dr. Asante has also consulted for the World Bank, Asian Development Bank, and over 30 countries worldwide. An academic as well, he has taught oil and gas engineering at Uthmaniyah (Ghana), the University of Calgary (Canada), and Imperial College London (UK). He holds BSc, MSc, and PhD degrees in Chemical & Petroleum Engineering.

Prof. Elvis Asare Bediako

(Former) Vice-Chancellor

Vice-Chancellor | University of Energy and Natural Resources, Kumasi

Professor Elvis Asare Bediako is a Professor of Plant Physiology and Vice-Chancellor of the University of Energy and Natural Resources (UNER), Kumasi. He is widely recognized for developing high-yielding disease resistant varieties of cassava, orange, maize, and finger millet amongst food crops in Ghana. A former Dean of Agriculture at the University of Cape Coast, he has trained many students, secured major international research grants, and supervised key national and international research. In 2016, he was named Ghana's Most Respected CEO (Public Institutions) and was listed among Ghana's 100 Most Influential People in 2015.

Message AASUP Chair

CEO's Speech: 16th Africa Sustainability Report and Think Energy KCA Awards 2023

Esteemed guests, esteemed leaders, and fellow Africans, it is a privilege to welcome you to the 16th Africa Sustainability Report and Think Energy KCA Awards 2023.

Tonight, we gather not just to celebrate achievements, but to celebrate African leadership — leadership rooted in resilience, innovation, and an unshakable belief in our collective destiny. This event stands as a beacon of progress — a testament to our shared commitment to the African Union Agenda 2063 and the United Nations Sustainable Development Goals. Together, we are showing the world that Africa's path to sustainability is not one of dependency, but of determination and vision.

RESPONDING TO THE CLIMATE CHALLENGE

Climate change is not new to us. But the true measure of a generation lies not in the challenges it faces, but in how it responds to them. In the heart of Egypt's fertile lands, we find that progress, plan, and care — nurtured with love and wisdom. This is Africa's moment to rise — to respond to crisis with creativity, to turn adversity into opportunity, and to lead with courage.

OUR DEEP GRATITUDE

Dear sponsors, partners, and supporters, I extend heartfelt gratitude for your trust and generosity that have shaped this journey. We pledge to continue rising strong, resource wisely, transparently, and for impact, ensuring that your contributions drive real change across our continent.

Together, we are not just supporting projects — we are shaping Africa's sustainable future.

HONORING EXCELLENCE

To our award winners, I offer my warmest congratulations. You embody the spirit of African excellence — visionaries who are not only meeting today's challenges but defining tomorrow's solutions. Your work proves that sustainability is not a foreign concept; it is an African value — one we have passed on for generations through community, stewardship, and care for the land. We celebrate you, and we look forward to the greater impact your leadership will bring.

AFRICAN CLIMATE FINANCE REALITY

Even as we celebrate progress, we recognize the funding gap for our Africa requires over \$400 billion every year to meet our climate goals. Yet, we receive only \$10 billion annually — most of it from public sources.

The private sector's role remains limited, capacity to access capital funds is still growing, and much of the financing remains debt, deepening vulnerability. But this challenge is not a deficit — it is a call to action.

VISION OF AFRICAN LEADERSHIP

Across the continent, we see nations taking bold steps forward. Renewables is restoring its foundational championing a new nation future. South Africa has mobilized over \$10 billion in renewable energy investments through

In: Last Transition.

Obama, through America's Green Climate Fund administration, is ordering up to \$200 million for climate projects. These are powerful stories — not from waiting, but of leading.

They remind us that Africa lies on the cusp of the sustainability conversation — Africa at the center of it.

THE OPPORTUNITY BEFORE US

Our continent holds extraordinary potential: from the sun abundant deserts to the winds that sweep across us; from our hydroelectric to geothermal resources — Africa has the resources to power its growth sustainably.

Through various markets, green funds, and innovative financing, we can attract capital that will drive inclusive, climate smart development.

The world is turning toward clean energy. Africa must prove it is not just a participant, but a partner — and a leader — in this transformation.

EMPOWERING THE NEXT GENERATION

We are proud of our partnership with some technical university leaders that globally certified 1000 courses. Our education for sustainability situation is building the next generation of African changemakers — young people who will design, drive, and define the continent's future.

CLOSING REFLECTIONS

My friends, Africa's sustainability story is one of possibility and pride. It is a story of people who refuse to be definitionally undercity, but by strength and creativity.

It is a story of a continent that is not waiting for help, but ready to lead the world toward a more sustainable and equitable future.

Let us move forward together — with vision, unity, and courage — to build a resilient, prosperous, and sustainable Africa.

Thank you.

Speakers Profile / Topics

05

Stakeholder (role)	Portfolio	Title
Gov. Stephen Kiwee (Uganda)	Director of Corporate Management (Uganda Foundation)	The role of law in promoting sustainable development lessons from around the world
Justice P. W. Kibuka (Kenya)	Legal Practitioner and International Dispute Resolution (global)	Empowering Women for a Sustainable Future
Mrs. Lucinda Njoroge	Civil Dispute Officer, Minerals Income Investment Fund	The Future of Mining: How Sustainability can drive long term profitability
Dr. Alfred Mwangi	Former Executive Secretary, Energy Commission	“A Decade of Climate Action: Meeting our climate goals for Agenda 2030”
Eng. Geoffrey Mwangi (Kenya)	Chief Executive (Pwani Technical University)	
Prof. Elio Isaac (Kenya)	University of Energy and Natural Resources	Green agriculture for food security in Africa
Eng. Mark Njoroge	GreenCloud Company Ltd.	Accelerating the Green: Integrating variable renewables and ensuring energy security for Africa's power sector
Prof. Samuel Njiragu	Eng'Vina Njiragu, Kenya Institute of University policy	The Role of Technical Education in achieving the SDGs
Samuel Odum	Minister of Finance	The Role of the Bank of Ghana in Promoting Financial Sustainability

Rev. Stephen Adjell

Director of Contracts Management/
Agape Foundation

Rev. Stephen Adjell is a well-qualified in Construction Law and Project Management with over 25 years of executive level experience across the construction, engineering, energy, and governmental industries. He holds an MSc in Construction Law, an MBA in Project Management, and a Certificate in Executive Strategy from the University of North Carolina. He holds numerous professional credentials including PMP®, PMACP, MCMA, PMP, and CMII. Stephen has significantly contributed to the advancement of education and character development in the US, Africa, and the Middle East, and serves as a Subject Matter Expert for the Project Management Institute (PMI). He is currently Director of Contracts Management at Agape Foundation where he champions green and sustainable solutions in project delivery.

Kasia P. H. Kenneth Azumah Esq (Mrs)

Legal Practitioner & Alternative Dispute Resolution (ADR)

Kasia Azumah is a legal practitioner and Alternative Dispute Resolution (ADR) expert with over a decade of experience in litigation, mediation, arbitration, and legal counseling. She is the mastermind behind all related engagements, where she designs and implements dispute resolution strategies and provides mediation and arbitration services.

Kasia holds an LL.M (in ADR), a Bachelor's Law qualification, and degrees in Law and Management, alongside an Executive Diploma in Mediation & Arbitration & strong gender and women's rights advocate, she has member of the Ghana Bar Association, FIDA Ghana, and the Ghana National Association of Arbitrators.

Mrs. Justina Nelson

*Chief Executive Officer/
Minerals Income Investment Fund*

Justina Nelson is the Chief Executive Officer of the Minerals Income Investment Fund (MIIF) and the first woman to hold this position. With over 20 years of experience in banking and finance...including 10 years at Standard Bank Ghana...she brings strong leadership and operational expertise to advancing MIIF's mandate of enabling Ghana's mineral wealth for sustainable national development. She holds an LL.M. in Corporate and Commercial Law, an MBA in Marketing and a B.A. (Hons) with a BSc in Management and Psychology, all from top Ghanaian institutions.

Dr Alfred Ahenkorah

Executive Secretary, Energy Commission

Dr. Alfred Ahenkorah is the Executive Director of Akonkorah & Partners, an engineering and energy management firm. He is the former Executive Secretary of the Energy Commission of Ghana, a position he held from 2004 to 2016 with over three decades of experience in energy efficiency policy and management. He has prepared several bills in Ghana's power sector reform and the formulation of appliance energy performance standards.

Dr. Ahenkorah previously served as founding Executive Director of the Energy Foundation and has held board positions with ERM, the National Petroleum Authority (NPA), and others. He holds a PhD in Technical Science (Energy & Materials), an MSc in Mechanical Engineering, and an Executive MBA in Finance.

Ing. Professor Kwadwo Adinkrah-Aplah

Vice-Chancellor (Jiangxi Technical University)

Ing. Professor Kwadwo Adinkrah-Aplah is the Vice-Chancellor of Jiangxi Technical University and a Professional Civil Engineer with over 20 years of experience in academia and industry. He holds BSc, MPhil, and PhD degrees in Civil Engineering from abroad and is renowned for developing the Kwaranta building block for sustainable construction, which earned the Civil Engineering Excellence Award in 2016.

He serves as Chairman of the National TERT Qualifications Framework Committee and is an executive member of AFCEA, a Fellow of the Ghana Institution of Engineering, and member of ICE and ASCE. Prof. Adinkrah-Aplah is also an Elder of the Church of Pentecost.

Prof. Amavi Acaikpovi

**Enron (aigbo)
Agribusiness, Enron Technical University (aigbo)**

Prof. Amavi Acaikpovi is a distinguished Professor of Electrical and Energy Systems Engineering and the acting Vice-Chancellor of Enron Technical University (aigbo). He also serves as President of the 100 National Committee of Ghana and holds senior memberships with IEEE, Institute of Engineers (aigbo) and Institution of Engineers (aigbo). He has authored over 100 publications and supervised numerous MSc and PhD theses. Since 2010, he has spearheaded AUTE transformation, expanding postgraduate programs, securing major grants, and leading efforts recognized by Ghana Higher Education (aigbo) as Ghana's top technical university and Africa's best technical school.

Ismail Adam

Bank of Ghana

Ismail Adam is a Banker and lawyer with nearly three decades of experience at the Bank of Ghana, where he currently serves as Head of the Banking Supervision Department. In this role, he oversees the supervision of banks to ensure financial stability and soundness within Ghana's banking sector.

He holds a BSc. in Information and Statistics, in Development Studies from the University of Ghana, as well as from Cornell Law School, and a Qualifying Certificate in Law from the Ghana School of Law.

Ismail has authored several publications on macrofinance risk management, and financial inclusion, including a 2018 case study on Agricultural Finance Policy Interventions in Ghana for the Alliance for Financial Inclusion (AFI).

Prof. Adebayo Felix Adebayo

*Faculty of Computing Engineering &
Mathematical Sciences (Fame)*

Dr. Adebayo Felix Adebayo is a Full Professor of Computer Science with over 18 years of senior administrative and academic experience. His expertise spans artificial intelligence, software engineering, data analysis, information systems, and project management. He is also a leading sustainability professional with robust experience in teaching, research, mentoring, and management.

He holds a PhD and MSc in Computer Science from the Federal University of Agriculture, Abeokuta, an MSc in Accounting & Finance, a BSc in Computer Science, and a PGDIP in Education. Professionally, he is a chartered IT Professional (CITP), Certified Management Consultants (CMA), and Project Management Professional (PMP).

Prof. Adebayo is a fellow of the Nigeria Computer Society and the Institute of Management Consultants, and a member of the Institute of Engineers (IEng), Project Management Institute, and International Society of Sustainability Professionals.

06

Training Programme

Module 1: Certified ESG & Sustainability Specialist (CESS)

Objective

To equip professionals in finance, corporate governance, and policymaking with the knowledge and skills to integrate Environmental, Social, and Governance (ESG) principles into financial strategies, reporting frameworks, and sustainable investment decisions.

Learning Outcomes

Upon completion of this certification, participants will be able to:

- Design and implement ESG frameworks for financial institutions and businesses.
- Assess sustainability risks and opportunities in investment decisions.
- Develop and apply carbon market strategies for sustainable finance.
- Understand renewable energy policies and integrate ESG principles into energy-related projects.

Target Group

Finance and investment professionals
ESG and sustainability officers
Corporate governance experts
Policymakers and regulatory officers

Modules & Duration

Sustainability for Financial Institutions (4 Weeks)
Carbon Markets & Sustainable Finance (2 weeks)
ESG-Compliant Renewable Energy Policies (2 weeks)

Module 2: Certified Green Energy & Circular Economy Professional (CGCEP)

Objective

To provide energy and environmental professionals with expertise in green energy adoption, carbon offset strategies, and circular economy solutions to drive sustainability in businesses and industries.

Learning Outcomes

Upon completion of this certification, participants will be able to:

- Design and implement renewable energy systems in alignment with ESG compliance.
- Develop carbon reduction strategies and sustainable financing models.
- Apply circular economy principles to reduce waste and optimize resource efficiency.
- Analyze and integrate sustainability policies into corporate strategy and environmental management.

Target Group

Renewable energy professionals
Environmental sustainability experts
Circular economy practitioners
Policymakers and regulators in energy and waste management

Modules & Duration

Green Energy & Renewable Technologies (6 weeks)
ESG Compliance & Sustainable Energy Policies (4 weeks)
Waste Management & Circular Economy (5 weeks)
Carbon Markets & Sustainable Finance (3 weeks)

Module 3: Certified Sustainable Development & Urban Innovation Specialist (CSDUIS)

Objective

To equip professionals with the skills and knowledge to develop smart, sustainable cities and climate resilient infrastructures that promote economic and environmental wellbeing.

Learning Outcomes

Upon completion of this certification, participants will be able to:

- Apply sustainable urban planning principles to create climate resilient cities.
- Implement RECs compliant renewable energy projects in urban and agricultural settings.
- Develop policies and strategies for sustainable agriculture and food security.
- Integrate green architecture and smart city initiatives to enhance environmental efficiency.

Target Group

Urban planners and environmental consultants,
Architects and civil engineers,
Agricultural sustainability professionals,
Policy makers in urban and rural development.

Modules & Duration

Sustainable Urban Planning & Green Architecture (6 weeks)
Climate Smart Agriculture & Food Security (6 weeks)
REC-Compliant Renewable Energy Solutions (6 weeks)

Module 4: Certified Sustainable Events & Tourism Specialist (CSETS)

Objective

To provide tourism, event, and sports management professionals with sustainability strategies that ensure environmentally and socially responsible cultural, sports, and event-based projects.

Learning Outcomes

Upon completion of this certification, participants will be able to:

Plan and execute sustainable events with minimal environmental impact.

Develop eco-friendly tourism models that preserve cultural heritage.

Apply sustainability principles to sports infrastructure and management.

Integrate ESG considerations into tourism, events, and sports policies.

Target Group

Event planners and festival organizers

Tourism and hospitality professionals

Sports management professionals

Cultural heritage conservationists

Modules & Duration

Sustainable Culture and Tourism Program (3 weeks)

Event Sustainability Program (3 weeks)

Sustainable Sports Management (3 weeks)
